PROFESSIONAL EXPERIENCE

Software Engineer – EverDriven 2023 – 2025

- Designed, developed, and delivered scalable and efficient full-stack solutions using microservice architecture leveraging C# .Net, ReactJS, and Azure cloud technologies
- Saved considerable time in feature release by implementing feature flagging to allow for phased rollout of new features and ability to enable/disable features without going through a full release cycle
- Enhanced team productivity and collaboration through effective leadership as Scrum Master
- Successfully lead multiple projects collaborating across teams to deliver features within deadlines

SEI Teaching Assistant – General Assembly 2022 – 2023

- Assisted Software Engineering Immersive students in understanding and applying core concepts of full stack software engineering utilizing HTML, CSS, JavaScript, Python, ReactJS, NodeJS, PostgreSQL, and MongoDB
- Provided one-on-one mentorship to students, helping them overcome challenges and achieve their learning goals
- Assisted students with debugging, troubleshooting, and utilizing coding best practices

Freelance Developer – Salt Lake Symphony 2022 – 2022

- Designed a clean, modern, responsive, and accessible website for the Salt Lake Symphony
- Collaborated with the symphony board to deliver a solution that fit their specific needs within their budget
- Leveraged Python and Pandas library to preserve concert history going back to 1980 and integrate into modern events calendar
